

SafeMiles. It is the one thing we all hope for when we throw a leg over the saddle and head out for the day - to enjoy our sport and be certain there is a tomorrow. That's why we created the SafeMiles Endowment fund. A long-term legacy fund to provide training for all riders. We won't use a dime until we have one million dollars in the bank. Then, we start changing the future of motorcycling.

Will you help do something remarkable this year?

SafeMiles is a long-term initiative to permanently fund rider training activities for MOA members. It's a \$1 million fund that will guarantee rider safety, education and training forever!
